

Policy Development

POLICY: The Board has the authority and responsibility to establish policy. In order to operate the district in an effective, efficient and consistent manner, written Board policies will be developed and periodically revised, as needed. Policy will be in the form of broad principles that define the desire and intent of the Board, and based on the needs of the district.

DEVELOPMENT: The basic responsibility for initiating, reviewing, and recommending new policies or policy modification will rest with the superintendent. However, new policies or changes may be proposed by any Board member, group or organization, staff member, student or resident of the district. The superintendent, in developing these policies, may be guided by the recommendations of the staff and may seek community input during the preparation and subsequent review of policy statements. Advice from legal counsel may be appropriate.

END OF POLICY
