

### Instructional Goals

The Monroe School District, in recognition of its responsibilities, has developed goals for guiding the instructional program. These goals were developed through involvement of staff, parents and community in the decision making and goal setting process. Goals will be reviewed periodically and, where desirable, modified. District goals relate State, program, and district goals in a coordinated and logical manner.

Specifically, the district will assist each learner to develop:

1. The ability to reason and apply knowledge.
2. The basic skills of reading, writing, speaking, listening, and the visual and computational skills.
3. Strong, healthy bodies and emotional well being.
4. Desire for life long learning.
5. Knowledge and understanding of how our democratic society functions both in theory and practice.
6. Respect for the dignity and the rights and worth of all individuals.
7. Skills, experience, attitudes, and the capacity to adapt to changing conditions.
8. Attitudes and behavior necessary to develop and preserve our environment.
9. The ability to live rewarding and satisfying lives and to identify and cultivate their own moral and ethical values and attitudes.
