

Drug, Alcohol, Anabolic Steroids &
Performance-Enhancing Substances Prevention

Students have a right to attend school in an environment conducive to learning. Since student drug, alcohol and tobacco use is illegal and harmful and interferes with both effective learning and the healthy development of students, the school has a fundamental legal and ethical obligation to prevent unlawful drug, alcohol and tobacco use and to maintain a drug-free educational environment.

Drug Prevention Program

The district's drug, alcohol, anabolic steroids, performance enhancing substances, and tobacco curriculum will be age-appropriate, reviewed annually and updated as necessary to reflect current research and Oregon's Health Education Academic Content Standards.

Drug, alcohol, anabolic steroids, performance enhancing substances, and tobacco prevention instruction will be integrated in the district's health education courses for grades K-12. At least annually students shall receive such instruction. Instruction shall minimally meet the requirements set forth in Oregon Administrative Rules.

The district will include information regarding the district's intervention and referral procedures, including those for drug-related medical emergencies in student/parent and staff handbooks.

Intervention is defined as the identification and referral of students whose behavior is interfering with their potential success socially, emotionally, physiologically, and/or legally as a result of prohibited drug, alcohol and/or tobacco use.

Any staff member who has reason to suspect a student is in possession of, or under the influence of unlawful drugs, alcohol, other intoxicants or tobacco on district property, on a school bus or while participating in any district-sponsored activity, whether on district property or at sites off district property, will escort the student to the office or designated area and will report the information to the building principal or his/her designated representative.

The building principal or designee will:

1. Call law enforcement if deemed appropriate;
2. Call the parents for a meeting;
3. Discuss the incident with student, parents if available and police if contacted;
4. Impose the penalty for violations using due process procedures;
5. Tell parents about resources which offer treatment or assistance for young people suffering from drug-, alcohol- or tobacco-related problems.

Students possessing, using and/or selling unlawful drugs, including drug paraphernalia, alcohol and tobacco on district property, in district vehicles, at district-sponsored activities on or off district grounds shall be subject to discipline up to and including expulsion. When considering

MONROE SCHOOL DISTRICT #1J

CODE: IGAEB
ADOPTED: 03/28/95
REVISED: 09/12/16
REVIEWED:

disciplinary action for a child with disabilities, the district must follow the requirements of Board policy JGDA/JGEA – Discipline of Disabled Students including those involving functional behavioral assessment, change or placement, manifestation determination and an interim alternative educational setting. Students may also be referred to law enforcement officials.

In general, drug-related medical emergencies will be handled like a serious accident or illness. Staff members will assist the student in any way possible. Parents shall be contacted immediately. A staff member shall be designated to accompany the student to the hospital or emergency medical facility. Procedures to be taken, including those for students participating in district-sponsored activities off district grounds, shall be included in the district's comprehensive first aid/emergency plan.

The District will seek funds from outside sources either independently or through coordinated efforts with other district, community agencies or the education service district for drug-free schools grants.

A planned staff development program that includes current drug, alcohol and tobacco prevention education, an explanation of the district's plan and staff responsibilities within that plan will be developed by the superintendent. The input of staff, parents and the community is encouraged to ensure a staff development program that best meets the needs of district students.

The district's Drug, Alcohol and Tobacco Prevention, Health Education policy, related policies, rules and procedures will be reviewed annually and updated as needed.
