

### Student Welfare

The safety of students will be assured through close supervision of students in all school buildings and grounds during the hours when students are normally present. Such supervision does not include early morning or the time following usual departure, unless students are present for a scheduled activity.

The district further assures the following practices:

1. Maintaining a safe school environment; appropriate personnel will be responsible for periodically inspecting the physical condition of all buildings and grounds.
2. Observation of safe practices on the part of school personnel and students, particularly in those areas of instruction or extracurricular activities that offer special hazards.
3. Offering safety education to students are germane to particular subjects such as laboratory courses in science, shop courses, and health and physical education.
4. Providing first aid care for students in case of accident or sudden illness.
5. Providing adequate supervision of playgrounds when they are used by students during school hours.

In addition, school personnel will be concerned about suspicious strangers loitering in or near school buildings or sitting in parked automobiles nearby. The principal will notify the police if the circumstances seem to warrant such action.

Teachers will instruct students not to accept gifts or automobile rides from strangers; students will be instructed to tell teachers, their parents, police, or school patrols of any suspicious strangers.

END OF POLICY
