

Student Supervision

All district personnel shall participate in a program to assure the health and safety of all students enrolled in the district by identifying unsafe and unhealthy conditions in equipment, building, and the grounds.

The Board expects all students to be under assigned adult supervision at all times when they are in school, traveling under school auspices, or engaging in school sponsored activities. School personnel assigned this supervision are expected to act as reasonably prudent adults in providing for the safety of the students in their charge.

No teacher or other staff member will leave their assigned group unsupervised except when an arrangement has been made to take care of an emergency, and this can be accomplished by the use of students.

During school hours, or while engaging in school sponsored activities, students will be released only into the custody of parents or guardian.
