

Disposal of School Property with Sentimental Value

The Monroe School District #1J will serve as the repository and custodian of all athletic and scholastic trophies and awards earned by its' students and staff. The Superintendent in conjunction with chosen District Athletic Directors and Administrators will chose how to best display and store all District trophies and awards. Team trophies will always remain under Monroe School District #1J control. Individual awards may be given to the individual who earned the award if they submit a written request for possession of the award and the Superintendent and his/her advisory group believes that decision will be the best decision for all involved parties.

Awards or trophies belonging to Monroe School District #1J or its member schools prior to consolidation (Alpine Elementary, Bellfountain Elementary, Irish Bend Elementary and Monroe Elementary) will always remain the property of Monroe School District #1J. Those trophies or awards displayed on another site are still the property of Monroe School District #1J. There shall be a written agreement between the School District and the party displaying the awards or trophies. This agreement will confirm the District ownership of the trophies or awards. The agreement will also clearly outline what will happen if the District wants the trophies or awards returned or if the displaying facility changes ownership.
