## **Early Return to Work**

It is the policy of the Monroe School District #1J in order to assist with recovery of our injured workers and to mitigate costs to both the Monroe School District and to our injured workers, to return injured workers to work as soon as possible following an injury. In order to achieve this goal, the following procedures have been implemented by the Monroe School District. The supervisor in your department will be responsible for monitoring this program.

## PROCEDURES:

- 1. Report injury to your supervisor <u>immediately</u>. Failure to do so could result in delay or denial of your worker's compensation claim.
- 2. If necessary to see a physician, pick up, complete and return an 801 form to the office. The Department Supervisor will inform the district office, who will then inform our insurance carrier of the claim. Your physician should also complete a Return to Work Status form at your first visit. The form must be returned to the Department Supervisor by the next working day.
- 3. Inform your physician that the Monroe School District has an early return to work program and will provide light duty work. These duties may vary and will be developed to it within your restrictions by the Monroe School District. Your light duty job may include portions of your regular job.
- 4. If you are not released for either regular or light duty work you must maintain weekly contact with your supervisor throughout the duration of any time off as a result of an on the job injury.
- 5. If you are released by your physician for either regular or light duty work, (part time, tempor

ary, or modified) you must report to work on your next regular ly schedu led shift.

6. Light duty/modified jobs are temporary in duration and will be within the restrictions stated by your physician. Modified work will be offered to you in a written job offer letter.

- 7. The Monroe School District, upon receiving new or additional information, will reevaluate the modified job and may reassign duties based on restrictions outlined by your physician.
- 8. The Early Return to Work Program will end when you, the injured worker, are released back to regular job duties, you are declared medically stationary, or permanent restrictions are know. Should restrictions change and job duties be reassigned, you will be contacted and given a new job offer letter.
- 9. Failure to comply with these responsibilities may result in disciplinary action up to and including discharge.
