

Technology Use Agreement

Computers are extensions of the classroom. The tools are meant to be a supplementary tool to quality teaching. The devices are the property of Monroe School District and the sole purpose is for coursework within the district buildings. Please read the following practices and procedures to ensure all parties are aware of their rights and responsibilities.

Google Chromebooks require an email address to log into the device. The school district has provided each student with a Gmail account. This account is routed through our district technology coordinator. All activity on the device is managed and recorded within the district's network. All activity is for school use.

Students Will:

- Be assigned a Laptop or Chromebook for each class by the teacher.
- Be responsible for placing the device back in its original and appropriate location.
- Take responsibility for the care and condition of the device.
- Use the technology for school related tasks only.
- Use a Gmail account to access Chromebooks (provided through the school district server).
- Notify the teacher when an issue should arise.
- Replace any damaged device due to inappropriate use.

Parents

- Give or decline consent to use electronic devices by filling out the registration forms.
- Request other types of electronics where necessary.
- Contact the high school office with any questions regarding the use of technology.
- Be aware that the school has provided email addresses so students may access the technology.

Staff

- Monitor all student activity on electronic devices.
- Use electronics to add meaning and value to educational tasks.
- Perform frequent checks on devices being used.
- Assign each student a device for each course.
- Monitor the condition of the devices routinely.
- Give alternate tasks when needed.

Consent Form

Monroe High School has taken steps to minimize the content that is accessible online, however not all content can be monitored and it is up to the discretion of the student to act in a responsible and respectful manner.

By signing the Agreement Form within the high school registration process, you are accepting the responsibility for your child. Should any damage occur to any device you will be responsible for the replacement of the device. The student will be susceptible to any disciplinary action that is illustrated within the student handbook under "Misuse of Computers". A student is allowed to supply their own Personal Educational Device if desired.

The technology being provided is a privilege and should be thought of as such. All technology is property of the school district. Any misuse can result in the loss of the privilege at any time, at the discretion of Monroe High School Staff. For any further questions please contact:

Beau Sisneros – High School Principal
