

Early Graduation

A student who wishes to graduate from high school in less time than the ordinary grade 9-12 sequence may request permission to complete graduation requirements on an altered schedule. The student and his/her parents/guardians will consult with high school guidance personnel to develop a graduation plan. Their intention to accomplish this plan will be stated in writing to the Principal.

A student may satisfy graduation requirements in less than four years. The district will award a diploma to a student fulfilling graduation requirements in less than four years upon the student's request and if the student's parent or guardian consents, if required.

By the start of their senior year, students who have 23 or more credits, but lack one or more required course to graduate, may elect to complete their senior year at an accredited college, provided that they take the courses at college that are required for high school graduation and complete the total equivalent credits needed. A student receiving an early graduation diploma forfeits all high school eligibility.
