

Threats of Violence

The Board is committed to promoting healthy relationships and a safe learning environment. To this end, student threats of harm to self or others, threatening behavior or acts of violence, including threats to severely damage school property shall not be tolerated on district property or at activities under the jurisdiction of the district.

Students shall be instructed of the responsibility to inform a staff member regarding any information or knowledge relevant to conduct prohibited by this policy. Parents and others will be encouraged to report such information to the district. Staff shall immediately notify an administrator of any threat, (written or verbal) threatening behavior or act of violence the staff member has knowledge of, has witnessed or received. All reports will be promptly investigated and law enforcement officials notified.

Students found in violation of this policy shall be subject to discipline up to and including expulsion. The principal shall notify the parent or guardian of any student in violation of this policy and the disciplinary action imposed. A referral to law enforcement will be made for any infraction involving a student bringing, possessing, concealing or using a weapon or destructive device as prohibited by state and federal law and Board policy.

The building principal shall, in determining appropriate disciplinary action, consider:

1. Immediately removing from the classroom setting any student who has threatened to injure another person or to severely damage school property;
2. Placing the student in a setting where the behavior will receive immediate attention from a building administrator, counselor, licensed mental health professional or others;
3. Requiring the student to be evaluated by a licensed mental health professional before allowing the student to return to the classroom setting¹.

The district may enter into contracts with licensed mental health professionals to perform student evaluations. Funds for evaluations, other disciplinary options or other procedures as may be required by law and this policy shall be provided by the district.

The building principal shall attempt to notify:

1. The parent/guardian of a student when the student's name appears on a targeted list at school that threatens violence or harm to the students on the list or when threats of violence or harm to the student are made by another student at school;

¹A student removed from the classroom setting for an evaluation may not be removed for more than 10 school days unless the principal is able to show good cause that an evaluation could not be completed in that time period.

2. Any school employee whose name appears on a targeted list at school threatening violence or harm to the district employee and when threats of violence or harm are made by a student or others at school.

The principal shall attempt to notify the above persons by telephone or in person promptly and within 12 hours of discovery of a targeted list or learning of a threat. Regardless, the principal shall issue a written follow-up notification within 24 hours of discovery of a targeted list or learning of a threat.

The building principal will provide necessary information regarding threats of violence to law enforcement, child protective services and health-care professionals in connection with a health and safety emergency if knowledge of the information is necessary to protect the health and safety of the student or other individuals. Additionally, the principal may provide such information to other school officials, including teachers, within the district or other districts who have a legitimate educational interest in the student(s) consistent with state and federal education records laws and district policies.

The district or person participating in good faith in making the notification required by ORS 339.327 is immune from any liability, civil or criminal, that might otherwise be incurred or imposed with respect to the making or content of the notification.

The district may enter into contracts with licensed mental health professionals to perform student evaluations. Funds for evaluations or other disciplinary options as may be required by law and this policy shall be provided by the district.

As a part of the district's proactive safety efforts, the superintendent will plan staff development activities designed to alert staff to early warning signs of possible violent behavior. Students so identified, shall be referred to a counselor, licensed mental health professional and/or multidisciplinary team for evaluation and follow-up as appropriate.
