Bloodborne Pathogens Exposure Incident Report

An exposure incident is a specific eye, mouth, other mucous membrane, non-intact skin or parenteral contact with blood or other potentially infectious materials (OPIM) that results from an employee's duties. OPIM includes blood, semen, vaginal secretions, saliva in dental procedures, cerebrospinal fluid, and all body fluids in situations where it is difficult or impossible to differentiate between fluids.

An exposure incident shall be reported by the employee to the district office as soon as possible, but no later than the next workday.

1. Legal name of injured employee _____Home phone_____

2. Date of Birth_____ Social Security #(optional)_____
